GCA-B3322D

1/3" CCD Fixed Dome Camera, Vari-Focal

- 650 TV Lines excellent high horizontal resolution
- High Sensitivity of 0,1 Lux
- TAMRON Varifocal Lens: f = 2.8 10.5 mm, auto iris
- High Light Compensation (Conversion of peaklight into greyscale)
- ATR (Adaptive Tone-curve Reproduction) Pixel-to pixel based tone-curve correction optimizes the contrast of image similar to WDR. ATR mode makes low luminance area brighter and high luminance area darker.
- Power Input AC24V/DC12V

SUMMARY

Grundig Analogue DSP Cameras High quality, reliable and effective.

Grundig analogue cameras have been designed and built to the very highest standards. Grundig has selected components which deliver outstanding image quality, including the very best image sensors and digital signal processors (DSPs). The cameras have been designed for up-to-date surveillance applications, incorporating functionality such as extended dynamic range, digital noise reduction, high light compression and more.

All the cameras in the Grundig analogue range have unique features in different housings to suit all eventualities. Outdoor options include Bullet cameras with infrared LED and vandal-resistant domes and indoor options include a large range of dome cameras
