

## Embedded LPR Software • Wiegand Output • Widely Supported Countries List • 5MP 30 fps • IP66 • IP67 • IK10

VIVOTEK's IB9387-LPR camera is a standalone LPR camera system, featuring built-in license plate recognition software as well as a white-lists and black-lists for advanced license plate verification. It converts number plates into Wiegand signals for use with an access control system, and also offers various APIs for integration with 3rd party systems such as parking management, toll collection, and weighbridge systems. The system is ideally applied for parking access control and Stop & Go toll systems.

### **Key Features**

- Embedded Access Control Application Based on LPR
   Software
- Wiegand Output for Access Control Applications
- Widely Supported Countries List
- $\cdot\,$  Black and White Lists for License Plate Verification
- Centralized List Management in Single Camera
- Various Open APIs Available for 3rd Party Integration
- Supports Hazard ID Recognition
- Trend Micro IoT Security
- Weather-proof IP66, IP67 and Vandal-proof IK10-rated Housing

Vehicle Access Control

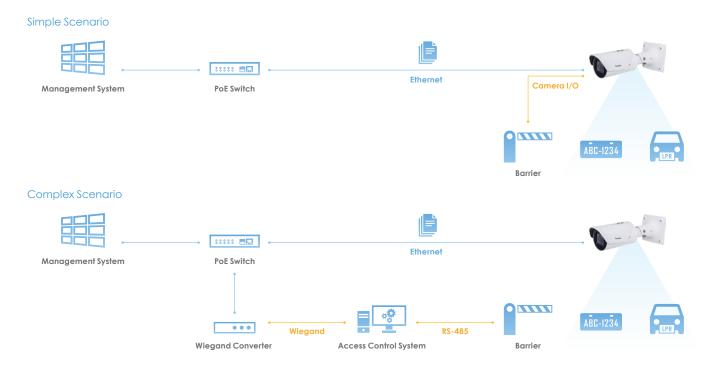

Stop & Go Toll Collection

## **Functions**

#### Supported Both Simple and Complex Scenarios

The IB9387-LPR camera can work as an embedded access control application based on LPR software. It can trigger digital output device on this camera when a number plate is recognized and matched the data in list such as white list. This IB9387-LPR camera can convert number plates into Wiegand signals to work with access control system.

#### Built-in White List, Blacklist, All plates and Not In List For Number Plate Verification

Users can manage license plate lists for various purposes, such as a white list that triggers a welcome message, a black list that triggers an alarm, and an all plates list for access control management. Multiple lists are supported, with no limit on the number of supported license plates.

User Interface of List Management

### **Functions**

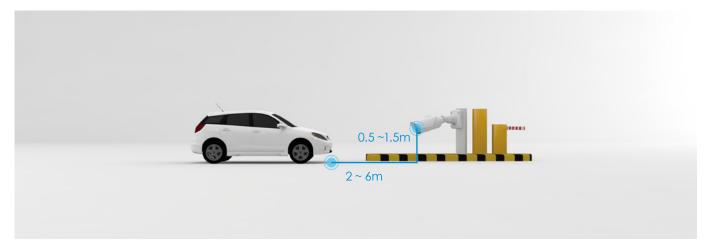

#### Easily Integrated with 3rd Party Systems

This IB9387-LPR camera can export all license plate recognition results and the related LPR events. It can be easily integrated with 3rd party systems, such as parking management systems, toll collection systems or weighbridge management systems, by sending XML or JSON messages.

### **Suggested Installation**

Installation Height: 0.5 ~ 1.5 m Installation Disatance: 2 ~ 6 m

Contact your VIVOTEK regional sales manager or send mail to lpr@vivotek.com for any questions.
